

## Commissioned painting work by Lizzi Aronhalt- Information sheet (2022)

*Thank you so much for your interest in commissioned artwork. I am happy to consider creating an original work of art for your collection! Here are some common topics for your information. Please note: at this time I am not accepting portrait commissions and reserve the right to decline commissions for any reason.*

### How it works:

- For commissioned artworks I request that the customer provide an image to work from. If needed, I can take the photo for an additional charge (listed below).
- We will work together to choose a size, surface and materials.
- Commissions can typically be completed within 6 weeks of down payment (Oil paintings will take an additional 3 weeks to account for drying time).
- Clients can choose specific colors to highlight or avoid, and can request one reasonable edit or change to the composition once artwork is completed.

### Pricing:

- Pricing is based on the complexity of an image, the materials used and the speed at which the painting needs to be completed.

### Payment:

- 50% of quoted price is due to begin work
- the remaining balance is due before or upon transfer of the artwork
- artist will issue invoice for both payments via email (preferred payment method is check)
- payments are non-refundable unless artist is unable to complete commission for any reason

### Pick up:

- Client is responsible for picking up commissioned artwork from the artist's studio at 140 East Market Street Akron, Ohio unless other arrangements are made.
- Any work not picked up or not paid in full within 6 months of completion will revert to full ownership of the artist and no money will be refunded.
